

# OFYR ISLAND PRO

The OFYR Island PRO is the mobile version of the OFYR Island 100-100 in Corten steel with a deeper base. The Island PRO can be used on a paved surface. It includes a solid chopping board for food preparation, handy accessories tray and option for under-counter wood storage. The chopping board is available in thermal beech wood and dark grey ceramics. After use you should store the thermal beech wood board indoors whereas the ceramic board can always stay outdoors.
